Comments:

Bluff Mountain special recognition status

Bluff Mountain deserves special recognition, and urge further protection. The regrowing forests protect the headwaters and provide flood control. The loop trails and trailhead are assets for our recreation-based economy. Two years of BioBlitzes have shown Bluff has some very rich biological communities based on unusual geology. Any new road construction or reconstruction would be expensive and highly controversial.

Thank you for protecting Bluff Mountain further and permanently.

Sincerely,

Meredith McIntosh

Asheville
