Nantahala/Pisgah National Forests Plan

Dear US Forest Service:

Please consider a greater portion of NC including the Craggy area, Terrapin Mountain, Tellico Bald, Wesser Bald, and Dobson Knob for Wilderness. Wilderness has many benefits including water purification and storage, recreation, wildlife habitat, and carbon storage. These areas must be protected while they still have Wilderness qualities. Also Wilderness should be more broadly defined to include areas that can be restored and protected as Wilderness. These areas are a great benefit to our country and the people of North Carolina.

Sincerely,

Barbara Sloss
