Nantahala and Pisgah Plan Revision

Our forests and waters are precious. If you continue to log Old Growth trees they will be gone forever. My community here in Brevard, NC would like to see the new plan to reflect the real value of our forests. They are priceless to future generations and the well being of the Southeast. At this point in time forests provide clean air and water which is more valuable than dollars. Please make decisions based on the knowledge of this need to preserve our precious resources.

Thank-you,

Kathleen Hannigan
