Rico West Dolores Roads and Trails Project

ADD YOUR COMMENT HERE As a user of local trails and a taxpayer, I request a non-motorized season from 7/1 thru 9/8 to protect elk calving and provide a quiet fishing experience. I also support limiting the existing motorized trails especially the ones that are not already authorized (ie, the spontaneously created ones). Beyond the noise and air pollution, I think that the wheels of these vehicles do disproportionate damage to the trails compared to hikers, bicyclists and horses. Thank you for considering my opinion.
