Rico West Dolores Roads and Trails Project

To the Forest Service:

Please use Alternative E for the Rico/West Dolores Travel Management project. Include modifications for quiet user groups that are underserved by your Alt. B.

In addition, seasonal closures should be July 1 to September 8. When I was in this area in August, I noticed plenty of motorcycles using trails, some ATV's and NO WILDLIFE, except for birds. We need to respect the mating, birthing and rearing habits of wildlife in any Plan that is adopted.

Additionally, as we let motorized vehicles run rampant over these trails erosion and stream damage are continuing un abated. We have no resources to fix these issues other than decommissioning as many trails as possible. Humans be they motorized or non motorized are not the only creatures that use this forest. Respect their existence. Thank you.

Holly Rankin
