Rico West Dolores Roads and Trails Project

Hi! I am writing in support of the shortest open season under consideration, July 1 to September 8th, because it will best preserve trails, minimize disruption during spring elk calving and rearing, and bring quiet to most of the fall season for both hunters and most other trail users.

I also recommend closing Eagle Peak to motorized use. Motorcycle use on this fragile high altitude trail has caused extensive resource damage and needs to be stopped.

Thank you for your consideration.

MK Gunn
