Comments:

I would like to register my strong opposition to this US Navy proposal on several grounds:

- * The EIS is flawed [ndash] based on noise levels that are not accurate for the Growler jets that will participate
- * The Olympic National Forest is a world renowned recreational area that will become unappealing
- * The impact of noise levels on wildlife, whose hearing is more acute than humans, has not been accurately assessed

I support the US Navy and their role protecting our country. I also believe we need to protect the places that they are chartered to protect! The US Navy has training areas already established in Idaho and Nevada [ndash] a short flight away.

Please call for additional environmental assessment with actual Growler noise profile data and please protect our Olympic National Forest for wildlife and our citizens to continue to enjoy.
