Comments:

I am an Asheville resident. I know hundreds of people here and none of us want to see our forests destroyed in order to placate the timber industry or the hunters who whine about having to drive somewhere other than Pisgah National Forest in order to shoot a deer. Please come up with a rational plan to keep our forests intact. Our economy depends on tourism and nobody wants to go see a clear cut devastation that used to be a pristine nature sanctuary. The forests can manage themselves and the arguments to the contrary are absurd. Pisgah Forest is one of the most beautiful places on Earth and if we allow greed to destroy it we will truly be damned.
