Comments on Forest Revision Plan for Nantahala-Pisgah.

It is my understanding, the Forest Service's preliminary forest plan draft tilts lopsidedly toward logging. It aims to increase logging five-fold while leaving over 125,000 acres of ancient forests, recreational hotspots, and unique biological areas unprotected.

I want the Forest Service to reach a compromise that supports the full spectrum of interests--Please protect the unique biological areas, ancient forest and recreational hotspots.

The win-win plan-more timber harvests and more protected areas.

Sincerely, Kathy Stilwell
