Wilderness Plan revision

As a forty-year resident of Clay County, North Carolina, I revere the undisturbed, natural beauty of the mountains that originally drew me here. I rigidly oppose any commercial exploitation or alteration of our currently protected forest lands for pecuniary interests including, but not limited to, housing, logging, clearing, burning, species management, road cutting, motorized access, and sales/rental facilities.

I understand that enhancements and/or augmentations of the natural state of the forest areas may be occasionally and selectively required for maintenance and accommodation of visitors, but must be warranted and managed by the Forest Service.

Thank you,

Bob Grove
