Geographic & Management Area Building Blocks

?I have hiked all around the mountains of Western North Carolina at least 30 years and hope to continue. The most important aspects of the Forest Plan for me are:

- 1) Protect trail corridors.
- 2) Develop new trails.
- 3) Avoid decommissioning trails without hiker input.
- 4) Protection of high importance trails such as Mountains-to-Sea, Art Loeb, etc.

When I am in the Forest or even driving to a trail head, I see many other people just like me, enjoying the beauty of our Forests in Western North Carolina. Many people come here from out of town just to hike in the Forest. Thank you for your efforts in keeping our Forest safe and also for the opportunity to give my input.
