Comments:

Geographic and Management Area building block

I support the protection and preservation of all old growth areas from timber cutting, and support all the recommendations made by the Carolina Mountain Club and The Wilderness Society for wilderness areas and areas that need special protection. We have very little left in Old Growth. Don't destroy what we have left!

The days of looking at our forests as material to exploit rather than our national treasures is over. WNC depends on our forests to attract tourism, and for the enjoyment and for recreation for our citizens.
