Subject: nantahala-pisgah economic impact study

Mike and Dave -

I think you're both aware of the economic impact studies on paddling, biking, and climbing that our friends over at the Outdoor Alliance have been working on.

The results are in. Take a look -

<http://www.outdooralliance.org/blog/2017/10/4/the-nantahala-and-pisgah-national-forests-an-economic-powerhouse-for-western-north-carolina-1>

And here is where you can download the actual reports -

<http://www.outdooralliance.org/nantahalapisgah-economic-reports>

I apologize if you've already seen this. But this is some awesome data and I wanted to be sure you didn't miss it.

Sutton
