Comments:

I am against Taking a wilderness study area into actual wilderness. I love being adventurous with my family, we want to be good stewards of our PUBLIC lands. The regulations that keep coming down on the public are discouraging. I am encouraged by radio adds to visit the Forrest but find that I will probably be breaking some laws or regulations if I do. I have a lot of kid,s our ninth child, yep, 9. Was born last Thursday. I am discourage by fluctuations in regulations. I want to enjoy my public lands with my children, but a movie in front of the tv is much safer in regards to being a good citizen than actually entering the Forrest and possibly breaking myriad regulation. My family rides non motorized bicycles. When we go uphill we have to pedal hard. I would like to adventure with my children on bycycles as we have been doing. Please consider us.
