Protect the Tongass National Forest

Jun 11, 2018

Forest Service

Dear Service,

Please set a path forward on Prince of Wales Island that protects wolves, deer, the Prince of Wales flying squirrel, and other forest dwellers dependent on old-growth habitat. The current proposal would result in habitat loss for some species on the island approaching an unsustainable 80 percent - NO GOOD. Please begin to restore balance on the Tongass by transitioning away from destructive old-growth clear-cuts as quickly as possible and by striving to protect and restore wildlife habitat instead. Thank you.

Sincerely,

Mrs. Jill Adler
