Comments:

Free-flowing creeks feeding the Middle Fork of the Salmon River, like Loon Creek, Camas Creek, Marsh Creek, Bear Valley Creek, Rapid River, Big Loon Creek, Indian Creek, Pistol Creek, and Beaver Creek, all contribute to the excellent fishing and recreation that is available in the river. They provide a source of cold, well aerated water that salmonid species thrive in. Protecting these creeks will ensure that this resource does not disappear in the future. Do NOT conduct suitability determinations for the above creeks.
