To whom it may concern, I would like to see the camas creek drainage designated as wild and scenic! Myself and a few friends have been goin in there for almost 20 years! We are mainly fly fishing and have seen through the years the erosion of river banks due to cattle, and a good population of chinook salmon get almost depleted from poaching and native americans gaffing them to the piont where we havn't seen a large salmon in years!!! My daughter is 12 now and she has been coming with me for about 10 years to camas creek! She too has noticed a decline in salmon numbers and not as many cutthroat around! I would love to see it come back to how it once was, for my daughters future and possibly her children! This particular drainage has a very special place in a lot of hearts!!! Please consider camas creek to be wild and scenic for ever!!! Thank you!
