Comments:

As citizens of the United States, we recommend that the Service take the No Action approach and keep the roadless area restrictions in place for the Tongass and other Alaskan National Forests. Those who are requesting to rewrite and open up roadless areas to development are obviously vested interests who intend to profit at the cost for the rest of the United States. We've seen this before all over the country and in Alaska. The greed needs to be curtailed to protect our national heritage.
