Comments:

In addition to the normal evaluation of the impacts of road construction, timber harvest, hydropower, and other developments, please consider addressing the following issues.

1. Consider the aesthetic impact of developments on the scenic views that residents and visitors to Alaska have as their first impression as they pass through the Panhandle on boats or in airplanes. Scars on the land are especially visible from the air.
2. Please address the quantitative impact of tree removal on climate change.

Thanks in advance for a thorough review of impacts vs no action alternative.
