Comments:

The NO-ACTION alternative is best for both Tongass and Chugach NF's

Make no mistake these forests ARE NOT OWNED by the local communities or global corporations, nor are they specifically for their economic or social benefit despite their drooling over this last island of old-growth timber.

They are ALL American's forests, and as such should NOT be given any state specific treatment.

Tell Trumps appointees and Alaska's governor to keep their greedy damn hands off our forests.

NO-ACTION alternative is required.
