Comments:

I have written you about the Roadless Rule in the past and I am not going to re-state my arguments for maintaining the Roadless Rule as you are well aware of these. I will just state that the Tongass roadless rule should be maintained. This area has no valid need for a road system. I have seen logging interests try to build roads into Wilderness Areas and other inappropriate areas for decades. Some areas are better off without roads and the Tongass is one of them.
