Comments:

I think these comments should only be allowed by people that live and work in Alaska. Not part time residents. However, because this is federal law and lands it has to be open to the public. I am all for opening these lands up to logging, mining etc. The habitat will be improved for animal grazing and new growth of trees, grasses etc. I really dislike when big city people get to push their ideals on rural America. Most don't ever visit and if they do it is for a short period of time, so why should they have any say whatsoever in Alaskan policy.
