Comments:

Dear Forest Service,

I am writing in support of the 2001 Roadless Rule in Alaska and against any changes to it that would allow the building of roads, or any man-made destruction, of the Tongass National Forest. In particular, I understand there are trees as old as 800 years old there. They must be protected at all costs. No short-term gain is worth the loss of anything that precious.

Thank you.

June (Betsy) Kuhn
