Comments:

I strongly oppose the loosening of protections for millions of acres of pristine,old growth forests in Alaska,s Tongass National Forest and Chugach National Forests. These protections need to stay in place to protect these God given whole ecosystems. Humans simply do not get it all! Forests and wildlife are struggling for survival throughout the World. Do not attack Alaska's National Forests! Give to our Earth instead of always taking. This is a moral issue and we must begin to nurture our planet.
