Comments:

I support a no-action alternative. I want the Alaska Roadless Rule to apply to all inventoried Roadless areas to remain protected. In particular, I want the Alaska Roadless Rule to protect all areas on Baranof, Chichagof, and Kruzof islands. I use these areas for recreation and love hiking and camping here, so I want primitive and semi-primitive recreation to be allowed in these areas. I also want to preserve these areas because of their importance to subsistence and commercial fishing. I have been given fish from others who depend on these areas. I do not want old growth timber harvest or mining to be allowed in any of these areas, but I would support access to selective young growth harvest from logging roads that already exist.
