Comments:

I object on every level to the harvesting of timber and mining activities on this land. As a tax paying US citizen I would be outraged to see this beautiful old growth forest negatively impacted and altered in any way. Old growth forests provide enormous ecological benefits to our planet including an huge amount of carbon sequestration capabilities. This forest also has a historic significance that should not be disrespected. This area is one of our last remaining strongholds of pure wilderness. Please let it stay that way.
