Comments:

Hello, my name is Shayna Rohwer and I live in Juneau, AK. I've lived in Alaska for the last twelve years and am raising my two young sons here. I'm writing because I strongly support conserving the roadless areas in the Tongass forest. Many of my friends work in the tourism and fishing industries--and as we look to diversify our economy and think about the future I believe that maintaining intact wilderness is critical to Alaska's future. Preserving forested areas such as the Tongass helps protect both tourism and fishing which support far more Alaskans than do the heavily subsidized logging industry. Please preserve the Tongass roadless rule!  
Thank you for your time,

Shayna
