Amending the road less rule

Dear Mr. Tu

I am writing in regards to amending or overturning the Tongass Roadless rule. The implementation of this rule was arbitrary and capricious in my opinion and has had serious impacts on the residents of this area. South East Alaska has long been able to responsibly develop their resources and has enjoyed the oversight of both Federal and State agencies that are very capable of ensuring that no irreparable impacts occur from responsible development. We have maintained some of the healthiest wild fisheries to be found anywhere in the world. The continuous implementation of the rule as it stands along with the the USFS practice of decommissioning our forestry roads that the taxpayers shelled out millions of dollars for continues to deny us residents of south east the ability enjoy the resources we have around us. Please continue with the efforts to either abolish the rule or at least amend it so responsible uses can once again flourish in the Tongass.

Respectfully yours,

Dave Hanna, 5th generation Alaskan
