Tongass Roadless Meeting in Petersburg, Alaska September 25, 2018

Introduce JCR/MAR previous owners of Glacier Guides, Inc. one of the longest Tongass National Forest Hunting Service provided in Alaska.

We have spent the 60's, 70's, 80's and 90's providing Guide Services on the Tongass National Forest.

MaryAnn achieved Alaskas First Registered Master Guide achievement and our daughter Alisha the second female Master Guide who now owns Glacier Guides, Inc.

We have used Petersburg for client dining, overnight facilities, for fish purchase, and charter aircraft to our yachts for many decades.

12

How and why is the Forest Service even considering spending millions of taxpayers dollars for projects that literally destroy the unique temperate rainforest and wildlife on the Tongass forest with little return? This also creates habitat that is not suitable for use by the many other users.

A recent example is the 1.4 million spent on a new logging road on Kuiu Island with only a small fraction of this cost returned from a logging company. This resulted from not even a bid from a logging company for the two square miles of timber . It was finally approved for a 100,000 payment for 100% export.

The cut timber and destroyed habitat requires decades to recover with little or nothing paid for the timber that goes

mostly to foreign countries.

THANK YOU

PLEASE CONSIDER AND  
INCLUDE IN PROCESS

WE WERE OUT OF COUNTRY.

Sorry to <sup>LIFE</sup> RESUME
