Comments:

You must protect these areas as wilderness. Just as president Roosevelt would have done it. This land is our heritage and cannot be gobbled up by managing the land. This way it is preserved for future generations. Just as our forefathers imagined.

Please think about the next generations

We need tp preserve this land just as it is now. Too much is at risk already with the increased demand for land and its resources. I

Thank you for listening to me and for considering this for your grandchildren
