Comments:

Hello FS folks!

Thanks for managing our lands and for taking my comment!

I am a sledder, better known as a snowmobiler. I've been riding in CNF since 1996. The areas I ride include; turnagain, lost lake, johnson pass, skookum glacier, squirrel flats, whittier, 20 mile, snow river, valdez, and grand view.

Out of the proposed plans, option B seems best suited for my needs. Plan C & D are off the table as they restrict access and eliminate access corridors. Please do not restrict any additional land, and please do not create any new or expand previous wilderness areas.

I spend thousands of dollars per year riding sleds, I buy a new sled every other year, I invite my friends from the lower 48 - economically speaking I'm your target customer!

I'd love to show my young son these riding areas when he is old enough and after he can demonstrate some skills in regard to snow science (avy training basically). Please allow me the opportunity to continue accessing the CNF for decades to come.

Thank you for caring and managing these precious resources. This may be a minor overstep, but please disregard all the comments from our friends in the lower 48 that think they know how to manage our lands... that they've probably never seen.

All the best,  
Jacob Bourne
