Comments:

Hello I am writing to oppose measures c and d. While I do not live in the area I enjoy snowmachining and snowboarding all over Alaska. I would hate to see an area restricted further. I believe skiers,hikers,and sledders can all enjoy the chugiach national forest equally. I believe people have been responsible in cleaning up after themselves and organizing yearly clean ups after the snow is gone. Earlier this summer I saw it first hand when someone's snow machine broke down and was left until the thaw. After the thaw several people donated their time and some money to retrieve it via helicopter. Thank you for your time.
