Comments:

The Nellie Juan-College Fiord WSA is an ecological and scenic treasure.

I ask the following changes be made to the current proposed Forest Plan. Classify the WSA lands as "Primitive" to protect the true character of the wilderness.

Keep the promise of managing the land "in perpetuity for conservation and wilderness purposes," which was made when the land was purchased in 1989.

Put a stop to the illegal chainsaw use in the WSA, this has caused damage along the beaches in sensitive areas.

I support a modified Alternative D wilderness recommendation that also includes Lake Nellie Juan and the lands within the WSA boundary that were purchased for restoration of wilderness resources following the oil spill.
