Comments:

As hey strong environmentalist end participant in sports carried out in our many great national forest, I want to express my sincere hope for there to be consideration given to the motorized users of the forest as well. THAT'S WRIGHT, I am alarmed by the number of non-Alaskans I have seen commenting on this issue and even though I am a non-Alaskan myself as well, and an environmental list as well, I find the general town of their input to be near reminded him on empathetic to the many motorized users of the forest. I know from many of my friends that the Chugach is amongst the most cherished locations of theirs to ride, and so I sincerely hope that they are not legislated out of their own participation in these wonderful places.
