Comments:

as a active user of chugach Forrest I do not agree with any proposed options other then to keep it the same as it is and or open more areas to winter motorized vehicles (with proper snow coverage). with all the thousands of acres of land here in alaska we the people are limited to only 4% of the land here for public recreational use and I do not agree with forcing more rules and regulations on what we can already barely use.i love alaska and live to play in the outdoors here and hate to see my and my community's opportunities and beautiful amazing memories cut back even further then it is already.
