Comments:

Hi my name is Kevin Lyon

First off, thank you for your efforts and willingness to consider all user groups in the Chugach Forest Plan Revision #40816.

As a snowmobile owner, I enjoy the use of the Chugach National Forest by riding snowmachines and I typically go over 30 times a year.

I hope that access will not be decreased for motorized vehicles, Specifically (snowmachines).

As a Resident of Sterling the Chugach National Forest is my backyard, my family also has had a cabin in the vicinity of Summit Lake for over 50 years. We enjoy riding from the cabin. So I would prefer Alternative A so I can continue riding with my family.

The areas I ride in the forest are: Lost Lake, Summit Lake, Carter Lake, Nellie Juan and Resurrection Pass.

A large majority of the Chugach is already restricted to non-motorized use, and the whats left should remain open, if not expanded. If Alternative A is not selected the only other viable option is Alternative B as Alternatives C & D are way too restrictive.

The access to motorized user groups have continued to be diminished since 2002 when The National Forest Service initiated the latest Forest Land Management Plan. Please consider leaving the current access in place and work toward opening more areas.

Thanks for listening to my input,

Kevin Lyon
