Comments:

I was born and raised in Montana and had the pleasure of living in the great state of Alaska for 6 years. I utilized the Chugach National Forest for both motorized and non-motorized recreation during my short stint there. Areas accessed via snowmobile included Lost Lake, Johnson Pass, Turnagain, Placer and others. Subsequently I moved back to the Lower 48 in 2014 but return almost yearly with the sole purpose of recreating via snowmobile in the winter months. I am in opposition to losing any more motorized access to our public lands including the Chugach National Forest. Our public lands should remain as such with access being shared by ALL users including that of the motorized community.

Respectfully,

Kara Broksle
