Comments:

I personally have had many great memories and times exploring the beautiful state of Alaska. The best sight seeing trips and memories I have made were done by being able to get back country via my snowmachine, four wheeler, and airplane. It would be a shame to not be able to take my kids out and show them the beauty of Alaska as I have seen because they couldn't access it with the help of motorized equipment. I honestly feel that all Alaskans like myself who enjoy being able to explore and have fun in this state do the best they can to keep nature the way it is. We don't leave garbage or parts laying around out there and if we ever came across trash someone else had forgot we would pick it up and properly dispose of it. We all enjoy this state and the amazing things we can do and see. Being able to continue to do that and show my kids how to respect the land and enjoy it at the same time means a lot to me.
