Comments:

I'm a life long Alaskan born and raised in the Palmer/Wasilla area.

My family loves snowmachining all over this great state. My personal favorite area's are at stake with this revision plan. I strongly oppose option c and d.

I recommend option B with emphasize on opening even more land and access corridors for the motorized community. As my children get older I would like to be able to take them on rides into some of the most beautiful country in the world. as there skill level is always improving. access to Nellie Juan, lost lake, Johnson's pass, turnagain pass, Whittier, Upper Russian lakes and all areas in the chugach National Forest should not be taken away from my children or there children.

Thank you for taking the time to consider this families concern with this revision
