Comments:

I am submitting this comment in support of diverse and multi-use access for recreational opportunities for ALL Alaskans in the Chugach National Forest. I am writing to express my concern that certain options would provide access to only a few select users of our National Forests. Therefore, I strongly recommend that the Forest Service choose "Option B" to keep motorized use areas open as they have traditionally been used and enjoyed by many members of the public.

The Forest Service's support of public use by all user groups on public lands is greatly appreciated.

Respectfully,
John Larsen
