Comments:

I am writing to encourage the adoption of Alternative D for the Chugach National Forest. At 80 years old I still spend summer time in the Chugach and know that it is vitally important to preserve this area for ourselves and for future generations. It is imperative to experience wildness and silence in order to develop the higher values necessary to guide our country into peace and spiritual prosperity. Alaska is our last chance to preserve these spaces. Let us be wise enough to do this before it is too late. Please think and choose with your head and heart.

Sincerely,
Barbara Rondine
