Comments:

I live just outside of Clark Fork, ID and was terribly disappointed that Senator Risch "listened" to our lowly county "advisory vote" on the Scotchman proposed wilderness. This is land that belongs to the ENTIRE COUNTRY - not just the few thousand residents of Bonner County. Our National Parks are so crowded. Some designated wilderness is being so popular there has to be limits on folks going in. Clearly the country WANTS these natural areas to be LEFT ALONE - not sold to highest bidder for mineral extraction or sold for a single time profit (what ID is doing to state land - once it's gone, it's gone forever & only one generation saw the profit) to private companies or individuals who are locking the public out of land they have historically enjoyed. PLEASE recommend Borah and the Pioneers for wilderness! We need to preserve the areas that are not already owned by private corporations or individuals for future generations to enjoy the same solitude and beauty we enjoy. I am shocked and appalled by the lack of concern for future generations and for the environment this current administration has. Please - do the right thing & continue to recommend these areas for wilderness designation.

Thank you for your time & thoughtful consideration.

Sincerely,

Mary Franzel
