Comments:

I am opposed to any new Wilderness, Wilderness Study Areas and Wild and Scenic River designations within the Salmon-Challis National Forest. I believe Idaho already has enough of these areas and having been a Forest Service employee for 33 years on the Challis and Idaho Panhandle NFs as well as being a private citizen and forest user, have witnessed first hand the continuing restrictions for multiple uses within our National Forests. Wilderness and Wild and Scenic River designations are just too restrictive.

Barry Wynsma
