Comments:

I am not a resident of Idaho, but I have a lot of family in the Salmon area. I love the ability to spend time out in the forest when I visit them. I disapprove of the government overreach that is widespread in taking control over public lands and restricting the recreational use of God's gift to His children. You must stop assigning WSA designations to the beautiful mountains of Idaho and allow the enjoyment that comes from wise recreation. I will not tolerate restrictions such as these!
