Comments:

Dear Forest Service.

You have under represented the lands that should be recommended as designated wilderness. We must preserve all that we can in order to preserve water sources, wild lands, wildlife habitat and life as we know it. We must also preserve as much forest as possible for carbon sinks.

Please reconsider your recommendations to include the following

:

Allan Mountain roadless area (borders Montana)

Anderson Mountain roadless area (part of West Big Hole) The Anderson Mountain Area is a 24,782 acre area, it is one of the most northern areas on the forest along the North Fork of the Salmon River.

Pahsimeroi Mtns Roadless area (northern extension of Lost River Range) The Pahsimeroi Mountains area is an 82,329 acre area at the head of three major drainages The Upper Salmon River, Big Lost and Pahsimeroi River basins.

North Fork Big Lost (this should have been in the Boulder White Cloud Wilderness but was left out because snowmobilers said they used it--and they don't). The North Fork of the Big Lost is a 43,917 acre area at the head of the Big Lost River drainage.

Porphyry Peak Roadless area (in the White Knob Mountains by Mackay)The Porphyry Peak area is a 47,614 acre area associated with the White Knob Mountain range.

South White Knob Mountains Roadless area The southern White Knobs area is an 83,953 acre area with comprises the southern end of the White Knob Mountain Range in the Big Lost River drainage.

Sunset-King Roadless area (southern portion of Lost River Range) The Sunset King area is a large area of 103,503 acres.

Grizzly Hill Roadless area (in Beaverhead Mts by Ledore) The Grizzly Hill Area is a 37,334 acre area Just North of the Town of Ledore in the Lemhi River Drainage.

Beaverhead Divide/Wheeltip Creek (in Beaverhead Mts by Ledore) The Beaverheads Divide area is a 32,320 acre area in the Lemhi River drainage.

Salmon River Breaks North Roadless area The Salmon River Breaks North Area is a 109,237 acre area north of the Salmon River with the majority of the area draining into the Middle Salmon.

Jump Off Peak Roadless area (southern end of Lost River Range)The Jumpoff Peak area is a 20,496 acre area on the southern end of the forest and is part of the Lost River Mountain Range.

Yellow Jacket Roadless area The YellowJacket Area is a 71,806 acre area adjacent to the FC-RONR Wilderness Area. The majority of the area is in the Lower Middle Fork Salmon River drainage with a small portion of the area in the Middle portion of the Salmon River drainage in Panther Creek.

Taylor Mountain Roadless area The Taylor Mountain area is a 103,998 acre area that primarily drains into the Middle portion of the Salmon River drainage

Sea foam Bubble: The Sea foam Bubble area is a 34,570 acre area in the Upper Middle Fork Salmon River drainage.

Salmon River Breaks South Roadless area. The Salmon River Breaks South area is a 107,512 acre area in the Middle Salmon Panther drainage.

Indian Peak Roadless Area. The Indian Mountain area is an 87,674 acre area in the northern most portion of the forest in the Middle Salmon Panther drainage.
