Comments:

Please exclude the King Mountain Paragliding/Hang Gliding access road and launch areas from the proposed wilderness boundaries. King is an important site for freeflying, glider pilots are losing more and more access every year to various closures. Preserving this site is important, it is one of the premier flying sites in the US. I have flown King many times in the past and would like to be able to do so in the future. I'm a wilderness and backcountry enthusiast but we must not exclude other forms of recreation. King Mountain has a long history of free flight, let's preserve that ability for the future.
