Comments:

I am saddened to hear that this proposition of creating a wilderness area in a place that is already so untouched by human activity. As a hang glider pilot, this proposal would restrict all such flying activities in the wilderness area. Our sport is getting to to the land and peaceful to the surroundings. We also enjoy being a part of nature and having the ability to explore peacefully. I strongly encourage you to oppose this rezoning as this will impact the tourism that these beautiful landscapes bring, and therefore the local economies from such tourism.
