Comments:

I first flew my paraglider at King Mountain in 1997 when the US paragliding Nationals was held there. It is one of the most spectacular flying sites we have in the US. It would be a shame to cut off access for us to pursue a form of recreation that has a low impact on the land.

I hope you reconsider including it in any wilderness designation or provide an exemption, as is done for other traditional uses of land.

Sincerely,
Josh Cohn
