Comments:

Sirs,

I am writing to express my concern over the proposed plan that would close access to The King Mountain Hang Gliding Launch point located near Moore Id. I would like to urge RE-CONSIDERATION of the plan to either modify or eliminate those features of such plan that would eliminate said access. In fact it is not only the said access to the launch point but the airspace above the Lost River and Lemhi Ranges that common are routes that the Hang and Para Gliders fly along.

The King Mountain Gliding site (includes launch and ranges) is one of this countries' premier hang gliding sites and is frequented by pilots from all over the world all summer long. I have been to many competitions held at the King Mountain site over the years and it would be a huge loss of a world famous resource to Idaho and to the country and World if the site were to be lost due to access to the main launch site.

Sincerely

Gregory Billow
