Comments:

As a frequent visitor the proposed revision has been brought to my attention and it is quite concerning to myself and several others. I am quite concerned being an active paragliding pilot who has traveled almost annually to the area to participate in paragliding off of King Mountain near Moore and Arco. We have traveled many hours to the area to utilize the world class soaring conditions offered by the launch sites of King Mountain.

My understanding is if the revision were to be completed and land designated as wilderness area, roads to our hang gliding and paragliding launch would be closed and launching would be prohibited, likely ending pilots access to the site.

To lose this site would be devastating for hundreds of pilots. There have been competitions and fly ins held in the area for decades and is a frequent destination for free flight pilots. I ask that you take this into consideration when choosing the future of the area.
